INTRODUCTION

Over the years, Mauritius has become more and more popular with increasing number of tourists confirming its reputation as being one of the most desired tourists' destinations in the world. One of the main strength of attraction to tourists is the clean, magnificent white sandy public beaches and idyllic lagoons. No effort is being spared by the Beach Authority to maintain our public beaches clean and safe.

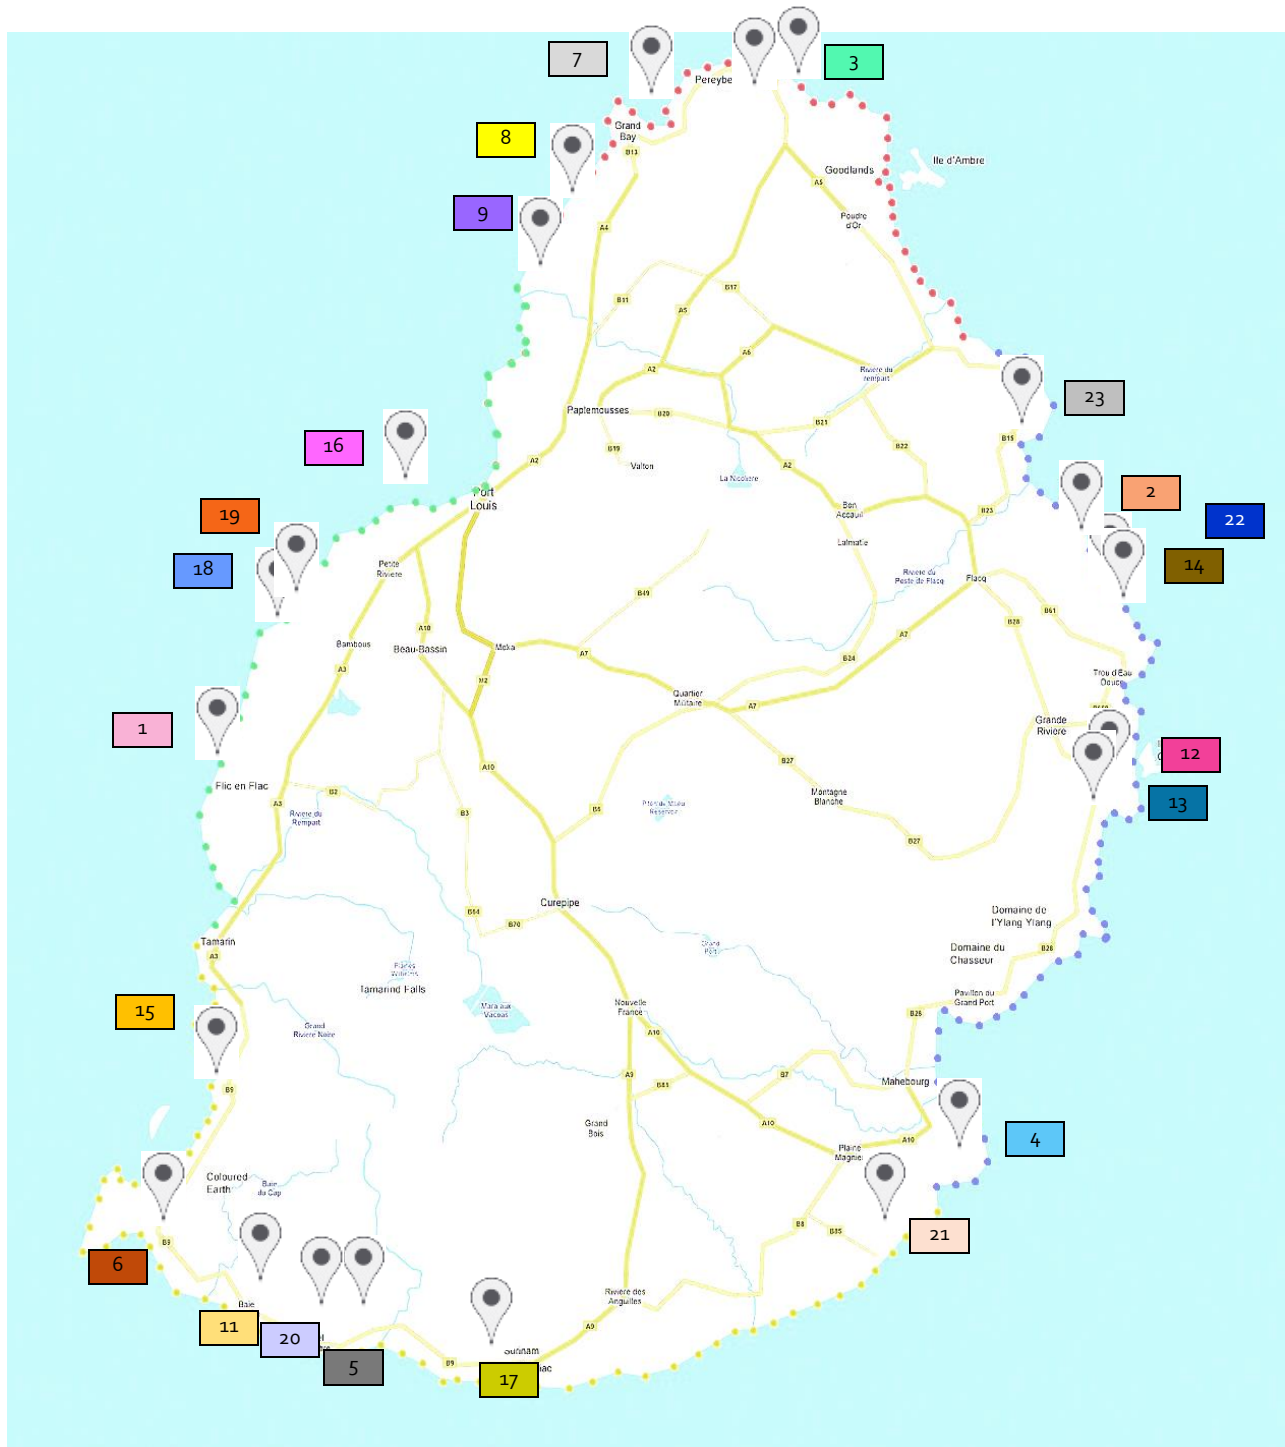

One of our objectives is to make it possible for the general public, including tourists to fully enjoy all facilities and amenities mad available to them on our public beaches at all time and immediately after the passage of cyclone "Diane".

This document gives a brief description of all the activities carried out by the Beach Authority during the month of **January, 2020** including Action Plan for Cleaning of Beaches and Lagoons as well as Embellishment of public beaches and, upgrading and embellishment carried out on our public beaches.

Participants:

1. Beach Authority

January 2020

1.0 Implementation of Action Plan for Cleaning of Beaches (including lagoons) and Embellishment of public beaches

The following activities as per the Action Plan were carried out during the month of January, 2020 at the level of the Sub Offices of the Authority:

- cleaning of beaches
- cleaning of lagoons
- tree plantation
- sensitisation campaign through distribution of plastic bin bags and pamphlets

The activities were carried out at Belle Mare, Blue Bay and Flic en Flac public beaches in collaboration with several stakeholders.

1.1 Cleaning of lagoon and embellishment campaign at Belle Mare public beach held on 28 January, 2020:

➤ *Cleaning of lagoon*

Waste collected from cleaning of lagoon by personnel from National Coast Guard and Ministry of Blue Economy, Marine Resources, Fisheries and Shipping together with Staff of Beach Authority

2.0 Implementation of projects under Financial Year 2018/2019 (ongoing)

2.1 Construction of a new Sub Office at Saint Felix public beach

In the context of the decentralisation of its activities, a fourth sub office is presently under construction at Saint Felix (South) public beach as from June, 2019. Following the termination of the contract agreement, the works consisting of painting of external walls, construction of reinforced concrete kitchen table, installation of beta fence, casting of front door slab and construction of block wall below container are presently being carried out in house by a team of Handy Workers and General Workers of the Authority and are expected to be completed by **mid-February 2020**.

2.2 Infrastructural Development Works at Riambel public beach

In line with its mandate to embellish public beaches in Mauritius, the Beach Authority has embarked on infrastructural development projects on several public beaches. After Bel Ombre and Petit Sable public beaches, infrastructural development works are being carried out as from May, 2019 at Riambel public beach. The works are ongoing and are expected to be completed by **mid-February, 2020**.

The project consists of:

- construction of a new toilet block
- construction of a parking area for 25 vehicles
- fixing of composite plastic bollards within the perimeter of the parking area and along the coastal road to prevent vehicular access to the beach
- landscaping works

3.0 Implementation of projects under Financial Year 2019/2020 - Upgrading of entrances and exit accesses on public beaches

Vehicular access on the beach dynamic zone is one of the causes contributing to beach erosion. Accordingly, with a view to preserve the coastal zone, parking areas and accesses to public beaches are being upgraded to facilitate vehicular access as well as to restrict movement of vehicles to the beach frontage. Works relating to upgrading of entrances and exit accesses at P. G. Union Ribet, Bain Boeuf, Pointe aux Piments (near Oberoi Hotel), Pointe aux Piments (near Fish Landing Station) and Trou aux Biches (near Police station) public beaches started on 19 November, 2019 and have been completed on 3 January, 2020.

5.0 Events held on public beaches

5.1 Crackdown operation at Blue Bay public beach

A Crackdown operation was carried out at Blue Bay public beach on **18 January, 2020** at Blue Bay public beach in collaboration with personnel from National Coast Guard and Police Department with a view to prevent any illegal trading activities and to ensure compliance to existing regulations in force. No contraventions were established and it was observed that all beach traders were in compliance with the conditions and criteria of their respective licences.

Verification of Beach Trader's Licence at Blue Bay public beach

6.0 Post Cyclone “Diane”

The island was under the influence of cyclone “Diane” from **24 to 25 January, 2019**. A survey was carried out on all public beaches by Technical Staff of the Beach Authority after the passage of the cyclone on **25 January, 2020**.

Observations:

It was noted that no major damages have been occurred on our public beaches and to the beach amenities/infrastructure, except for accumulation of water/seaweeds, a few fallen/uprooted trees and some broken branches on certain public beaches (namely La Pointe Cassis Le Morne Village, La Cambuse, Belle Mare and Pointe aux Piments, amongst others). Beach erosions have been noted at Le Goulet, Pointe aux Piments (near Cemetery), Mont Choisy, Bain Boeuf, Cap Malheureux, Blue Bay, Le Bouchon, St. Felix, Ruisseau des Creoles, Baie du Cap, La Prairie, P. G. L’Embrazure, La Pointe Cassis Le Morne Village, Belle Mare public beaches, amongst others.

Action Taken:

- The relevant Scavenging Contractors and Ministry of Environment, Solid Waste Management and Climate Change (Solid Waste Management Division) were requested to ensure an immediate and proper cleaning and carting away of all post cyclonic wastes (comprising mainly of green wastes, and branches) and to also ensure lopping, trimming and pruning of broken branches on public beaches.
- The Maintenance Teams of the Authority has also been deployed for a prompt inspection, repairs and maintenance of all lighting systems on public beaches.
- The Conservator of Forests was approached for necessary clearances to enable the felling and carting away of other fallen/uprooted trees lying on public beaches.
- As regards to all proclaimed public beaches affected by beach erosion, the matter was referred to the Integrated Coastal Zone Management Division (ICZM) of the Ministry of Environment, Solid Waste Management and Climate Change (Department of Environment) for necessary action.
- The relevant Scavenging Contractors were requested to reinstate all damaged accesses.

Follow-up Action:

- *Beach erosion:* A survey would be carried out in collaboration with ICZM Division of the Ministry of Environment, Solid Waste Management and Climate Change (Department of Environment) for remedial action by authorities concerned.
- *Fallen/uprooted trees:* Upon clearances being received from the Conservator of Forests, necessary actions would be initiated to fell and cart away all fallen/uprooted trees lying on proclaimed public beaches by relevant Scavenging Contractors. Necessary action would be initiated by the Beach Authority for the felling and carting away of all fallen/uprooted trees lying on proclaimed public beaches under the responsibility of the Field Services Unit of the Ministry of Environment, Solid Waste Management and Climate Change (Solid Waste Management Division).
- *Reinstatement of damaged accesses:* Close monitoring with relevant Scavenging Contractors to ensure that the damaged accesses are levelled as per contractual obligations.
- *Fishing boats/pleasure crafts:* The Beach Authority has initiated appropriate actions in collaboration with the National Coast Guard, Ministry of Blue Economy, Marine Resources, Fisheries and Shipping and Tourism Authority for the removal of all fishing boats/pleasure crafts kept on public beaches during cyclone for security reason and to ensure that no obstruction is caused to beach users.
